

prep week: WordPress

The following exercise contains the following subjects:

- WordPress

Instructions

1. create a document to describe the decisions and changes you make + url to your website.
2. Creating a WordPress blog website about one of your hobbies:
 1. create your own WordPress instance in a free provider. Write in the doc the url.
<https://furrowed-subroutine.000webhostapp.com/>
 2. Use a blog theme. Write in the doc which theme it is.
Swift Blog
 3. Change the fonts to a new font. Describe in the doc what font did you change and to what font was it changed.
In Typography I could change to bold paragraph and with 1 px in letters spacing with also M size of letters and in Ab case from origin size and appearance
 4. Change colors. Describe change in the doc.
In right side of page editor there is Colour editing we can change the color

5. Add 3 posts about your hobbies.

I have added 3 posts with gallery of pictures

ONLY HERE

I allow you to use chatGPT. Add new relevant pictures to each post.

6. Add 2 new pages to the website. Inside one add a form. Inside the other – add a table. Populate with relevant data.

<https://furrowed-subroutine.000webhostapp.com/wp-admin/post.php?post=37&action=edit>

7. Change the background image of the website.

I have changed the upside image of the web

3. Send me the doc in a pdf format/ link to github where the doc is hosted.
